

Good Afternoon,

Finally some good news for Edge Turf Users! The air structure was installed this weekend and is going through the numerous inspections for use and occupancy.

We are on schedule to open this Thursday afternoon at 3:00pm. Confirmation will be posted NO LATER THAN 1:30 on our Facebook page www.facebook.com/bedfordsportscenter

Here are some general reminders for all players, coaches and parents.

- PLEASE REVIEW THE TURF DOME USER GUIDE- This is very important to maintain a safe environment for everyone
- Normal outdoor cleats are allowed on the turf
- There will be temporary toilets just outside the bubble, restrooms are also available in the Edge building next door
- There will be room along the sidelines for spectators, but please be aware of any stray balls being kicked or thrown on the field
- It is very important that people do not go near the emergency doors. THE SIR STRUCTURE IS A PRESSURIZED UNIT AND OPENING AN EMERGENCY DOOR WILL CAUSE A LOSS OF PRESSURE!
- The site is still a construction site! Parking is limited in the lot, please carpool if possible. Parking down at the Edge rink lot will be very limited as well
- Follow the signs to the entrance of the bubble through what will be a concessions building.
- Walk through the unfinished concrete building to the revolving door to enter bubble (only one person at a time in each turnstile space). Assessable access is the airlock door to the right of the revolving door.
- Field 1 is to the left when you walk in, Field 2 in the middle and Field 3 to the far right. See attached Field Graphic for field layout.
- Please see attached Field Complex Rules for Dos and Don'ts of the Field.

Please let me know if you have any questions.

Thank you,

Taylor
